

## ECSWANDC Community Impact Statement

**Reg: CF 15-0499-S2**

Biodiversity Protection / Urban Forest / Tree Canopy Coverage / Sustainable Build Environment / Tree Placement / Tree Removal / Land Use Environmental Review

With the increasing density of structures and people within our communities, the Empowerment Congress Southwest Area Neighborhood Development Council believes that the City of Los Angeles should better prioritize tree and biodiversity planning and fund its practical application allowing taxpayers to experience the various benefits of urban forests. Therefore, the ECSWANDC is in support of CF 15-0499-S2.
